This Supplemental Financial Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include, among other things, information concerning lease expirations, debt maturity, potential investments, development and redevelopment activity, projected construction costs, dispositions and other forward-looking financial data. In some instances, forward-looking statements can be identified by the use of forward-looking terminology such as “expect,” “future,” “will,” “would,” “pursue,” or “project” and variations of such words and similar expressions that do not relate to historical matters. Forward-looking statements are based on Kilroy Realty Corporation’s current expectations, beliefs and assumptions, and are not guarantees of future performance. Forward-looking statements are inherently subject to uncertainties, risks, changes in circumstances, trends and factors that are difficult to predict, many of which are outside of Kilroy Realty Corporation’s control. Accordingly, actual performance, results and events may vary materially from those indicated in forward-looking statements, and you should not rely on forward-looking statements as predictions of future performance, results or events. Numerous factors could cause actual future performance, results and events to differ materially from those indicated in forward-looking statements, including, among others, risks associated with: investment in real estate assets, which are illiquid; trends in the real estate industry; significant competition, which may decrease the occupancy and rental rates of properties; the ability to successfully complete acquisitions and dispositions on announced terms; the ability to successfully operate acquired properties; the availability of cash for distribution and debt service and exposure of risk of default under debt obligations; adverse changes to, or implementations of, applicable laws, regulations or legislation; and the ability to successfully complete development and redevelopment projects on schedule and within budgeted amounts. These factors are not exhaustive. For a discussion of additional factors that could materially adversely affect Kilroy Realty Corporation’s business and financial performance, see the factors included under the caption “Risk Factors” in Kilroy Realty Corporation’s annual report on Form 10-K for the year ended December 31, 2013, and its other filings with the Securities and Exchange Commission. All forward-looking statements are based on information that was available and speak only as of the date on which they are made. Kilroy Realty Corporation assumes no obligation to update any forward-looking statement made in this Supplemental Financial Report that becomes untrue because of subsequent events, new information or otherwise, except to the extent required in connection with ongoing requirements under U.S. securities laws.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Company Background

Kilroy Realty Corporation (*NYSE: KRC*), a member of the S&P MidCap 400 Index, is a real estate investment trust active in premier office submarkets along the West Coast. The Company owns, develops, acquires and manages real estate assets primarily in the coastal regions of Los Angeles, Orange County, San Diego, the San Francisco Bay Area and greater Seattle. As of March 31, 2014, the Company's stabilized portfolio consisted of 107 office buildings, which encompassed an aggregate of 13.3 million rentable square feet and was 92.4% occupied.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Executive Summary

Quarterly Financial Highlights

- FFO per share of \$0.66
- Net income available to common stockholders per share of \$1.14; includes gain on sale of discontinued operations of \$1.07 per share
- Revenues from continuing operations of \$125.8 million
- Same Store cash net operating income (“NOI”) and GAAP NOI increased 7.7% and 5.2%, respectively
- Results include \$1.3 million of accrued lease termination fees, net (expected to be paid in Q3 2014) and nonrecurring legal expenses of \$1.0 million. Excluding those adjustments, Same Store cash NOI and GAAP NOI increased 9.3% and 4.8%, respectively.

Quarterly Operating Highlights

- Stabilized portfolio was 92.4% occupied and 95.6% leased at quarter-end
- 278,355 square feet of leases commenced in the stabilized portfolio during the quarter
- 346,218 square feet of leases executed in the stabilized portfolio during the quarter
- In January 2014, executed a 12-year lease for 100% of the Company’s 333 Brannan Street development project in the SOMA submarket of San Francisco

Capital Markets Highlights

- No outstanding balance on the line of credit and \$95.5 million of unrestricted cash on hand

Strategic Highlights

- In January 2014, completed the sale of twelve office properties located in San Diego County for a gross sales price of \$294.7 million and a gain on sale of discontinued operations of \$90.1 million
- In March 2014, stabilized 360 Third Street redevelopment project in San Francisco, CA
- In March 2014, completed the purchase of a fully leased life science and office property in the South Lake Union submarket of Seattle, WA for a purchase price of \$106.1 million
- In April 2014, completed the sale of an undeveloped land parcel located in the Rancho Bernardo submarket of San Diego, CA for a gross sales price of \$33.1 million

Other non-cash adjustments, net ⁽⁸⁾	(1,097)	1,432
Funds Available for Distribution ⁽¹⁾	<u>\$ 38,348</u>	<u>\$ 28,103</u>

(1) See pages 28 and 29 for Management Statements on Funds From Operation and Funds Available for Distribution.

(2) Reported amounts are attributable to common shareholders and unitholders.

(3) FFO includes amortization of deferred revenue related to tenant-funded tenant improvements of \$2.4 million and \$2.4 million for the three months ended March 31, 2014 and 2013, respectively. These amounts are adjusted out of FFO in our calculation of FAD.

(4) Calculated based on weighted average shares outstanding including participating share-based awards (i.e. nonvested stock and certain time based restricted stock units), dilutive impact of stock options and contingently issuable shares and assuming the exchange of all common limited partnership units outstanding.

(5) Represents revenue recognized during the period as a result of the amortization of deferred revenue recorded for tenant-funded tenant improvements.

(6) Represents the non-cash adjustment related to the acquisition of buildings with above and/or below market rents.

(7) Represents the amortization of the noncash debt discounts on the Company's exchangeable senior notes, net of amounts capitalized.

(8) Represents other non-cash adjustments attributable to lease-related GAAP revenue recognition timing differences.

(1) Represents cash paid and costs incurred as of March 31, 2014.

(2) In January 2014, the Company obtained full entitlements to increase this project from a 27-story office tower to a 30-story office tower.

(3) In the second quarter of 2013, the Company commenced redevelopment of the historical buildings encompassing approximately 100,000 rentable square feet. In the fourth quarter of 2013, the Company commenced development of the second phase of its 675,000 square foot mixed-use project, which encompasses office, multi-family and retail components.

(4) The Company is planning to demolish the existing 2-story 45,195 rentable square foot office building and is currently pursuing entitlements to build a new 5-story 150,000 rentable square foot building.

(5) Estimated rentable square feet reflects existing office entitlements. The Company is currently pursuing mixed-use entitlements for this project, which would increase the estimated rentable square feet.

(3) Represents secured debt assumed in connection with an operating property acquisition.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Management Statements on Non-GAAP Supplemental Measures

Included in this section are management's statements regarding certain non-GAAP financial measures provided in this supplemental financial report and, with respect to Funds From Operations ("FFO"), in the Company's earnings release on April 30, 2014 and the reasons why management believes that these measures provide useful information to investors about the Company's financial condition and results of operations.

Net Operating Income:

Management believes that Net Operating Income ("NOI") is a useful supplemental measure of the Company's operating performance. The Company defines NOI as operating revenues (rental income, tenant reimbursements and other property income) less property and related expenses (property expenses, real estate taxes, provision for bad debts and ground leases). Other real estate investment trusts ("REITs") may use different methodologies for calculating NOI, and accordingly, the Company's NOI may not be comparable to other REITs.

Because NOI excludes general and administrative expenses, interest expense, depreciation and amortization, acquisition-related expenses, other nonproperty income and losses, and gains and losses from property dispositions, it provides a performance measure that, when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate and the impact to operations from trends in occupancy rates, rental rates, and operating costs, providing a perspective on operations not immediately apparent from net income. The Company uses NOI to evaluate its operating performance on a portfolio basis since NOI allows the Company to evaluate the impact that factors such as occupancy levels, lease structure, rental rates, and tenant base have on the Company's results, margins and returns. In addition, management believes that NOI provides useful information to the investment community about the Company's financial and operating performance when compared to other REITs since NOI is generally recognized as a standard measure of performance in the real estate industry.

However, NOI should not be viewed as an alternative measure of the Company's financial performance since it does not reflect general and administrative expenses, acquisition-related expenses, interest expense, depreciation and amortization costs, other nonproperty income and losses, the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact the Company's results from operations.

Same Store Net Operating Income:

Management believes that Same Store NOI is a useful supplemental measure of the Company's operating performance. Same Store NOI represents the NOI for all of the properties that were owned and included in our stabilized portfolio for two comparable reporting periods. Because Same Store NOI excludes the change in NOI from developed, redeveloped, acquired and disposed of and held for sale properties that were operational for two comparable periods, it highlights operating trends such as occupancy levels, rental rates and operating costs on properties. Other REITs may use different methodologies for calculating Same Store NOI, and accordingly, the Company's Same Store NOI may not be comparable to other REITs.

However, Same Store NOI should not be viewed as an alternative measure of the Company's financial performance since it does not reflect the operations of the Company's entire portfolio, nor does it reflect the impact of general and administrative expenses, acquisition-related expenses, interest expense, depreciation and amortization costs, other nonproperty income and losses, the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact the Company's results from operations.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Management Statements on Non-GAAP Supplemental Measures, continued

EBITDA:

Management believes that earnings before interest expense, depreciation and amortization, gain/loss on early extinguishment of debt, net gains and losses on disposition of discontinued operations, net income attributable to noncontrolling interests, preferred dividends and distributions, original issuance costs of redeemed preferred stock and preferred units, and impairment losses (“EBITDA”) is a useful supplemental measure of the Company’s operating performance. When considered with other GAAP measures and FFO, management believes EBITDA gives the investment community a more complete understanding of the Company’s operating results, including the impact of general and administrative expenses and acquisition-related expenses, before the impact of investing and financing transactions and facilitates comparisons with competitors. Management also believes it is appropriate to present EBITDA as it is used in several of the Company’s financial covenants for both its secured and unsecured debt. However, EBITDA should not be viewed as an alternative measure of the Company’s operating performance since it excludes financing costs as well as depreciation and amortization costs which are significant economic costs that could materially impact the Company’s results of operations and liquidity. Other REITs may use different methodologies for calculating EBITDA and, accordingly, the Company’s EBITDA may not be comparable to other REITs.

Funds From Operations:

The Company calculates FFO in accordance with the White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales of depreciable real estate and impairment write-downs associated with depreciable real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets) and after adjustment for unconsolidated partnerships and joint ventures. Our calculation of FFO includes the amortization of deferred revenue related to tenant-funded tenant improvements and excludes the depreciation of the related tenant improvement assets.

Management believes that FFO is a useful supplemental measure of the Company’s operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of the Company’s activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, the Company’s FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, management believes that FFO along with the required GAAP presentations provides a more complete measurement of the Company’s performance relative to its competitors and a more appropriate basis on which to make decisions involving operating, financing and investing activities than the required GAAP presentations alone would provide.

However, FFO should not be viewed as an alternative measure of the Company’s operating performance since it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company’s properties, which are significant economic costs and could materially impact the Company’s results from operations.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Management Statements on Non-GAAP Supplemental Measures, continued

Funds Available for Distribution:

Management believes that Funds Available for Distribution (“FAD”) is a useful supplemental measure of the Company’s liquidity. The Company computes FAD by adding to FFO the non-cash amortization of deferred financing costs, debt discounts and premiums and share-based compensation awards and amortization of above (below) market rents for acquisition properties, then subtracting recurring tenant improvements, leasing commissions and capital expenditures and eliminating the net effect of straight-line rents, amortization of deferred revenue related to tenant improvements and other non-cash adjustments. FAD provides an additional perspective on the Company’s ability to fund cash needs and make distributions to stockholders by adjusting FFO for the impact of certain cash and non-cash items, as well as adjusting FFO for recurring capital expenditures and leasing costs. Management also believes that FAD provides useful information to the investment community about the Company’s financial position as compared to other REITs since FAD is a liquidity measure used by other REITs. However, other REITs may use different methodologies for calculating FAD and, accordingly, the Company’s FAD may not be comparable to other REITs.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Definitions Included in Supplemental

Annualized Base Rent:

Includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue. Additionally, the underlying leases contain various expense structures including full service gross, modified gross and triple net. Amounts represent percentage of total portfolio annualized contractual base rental revenue.

Change in GAAP/ Cash Rents (Leases Commenced):

Calculated as the change between GAAP/cash rents for new/renewed leases and the expiring GAAP/cash rents for the same space. Excludes leases for which the space was vacant longer than one year, or vacant when the property was acquired by the Company.

Change in GAAP/Cash Rents (Leases Executed):

Calculated as the change between GAAP/cash rents for signed leases and the expiring GAAP/cash rents for the same space. Excludes leases for which the space was vacant longer than one year, or vacant when the property was acquired by the Company.

Estimated Stabilization Date (Development):

Management's estimation of the earlier of stabilized occupancy (95%) or one year from the date of substantial completion.

FAD Payout Ratio:

Calculated as current-quarter dividends accrued to common stockholders and common unitholders (excluding dividend equivalents accrued to restricted stock unitholders) divided by Funds Available for Distribution.

First Generation Capital Expenditures:

Capital expenditures for newly acquired space, newly developed or redeveloped space, or change in use. These costs are not subtracted in our calculation of Funds Available for Distribution.

Fixed Charge Coverage Ratio:

Calculated as EBITDA divided by interest expense (excluding amortization of deferred debt costs and debt discounts/premiums), current year accrued preferred dividends and distributions on Cumulative Redeemable Preferred units.

FFO Payout Ratio:

Calculated as current-quarter dividends accrued to common stockholders and common unitholders (excluding dividend equivalents accrued to restricted stock unitholders) divided by Funds From Operations.

Kilroy Realty Corporation

First Quarter 2014 Supplemental Financial Report

Definitions Included in Supplemental, continued

GAAP Effective Rate:

The rate at which interest expense is recorded for financial reporting purposes, which reflects the amortization of any discounts/premiums, excluding debt issuance costs.

Interest Coverage Ratio:

Calculated as EBITDA divided by interest expense (excluding amortization of deferred debt costs and debt discounts/premiums).

Lease-up Properties:

Properties recently redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities.

Net Effect of Straight-Line Rents:

Represents the straight-line rent income recognized during the period offset by cash received during the period that was applied to deferred rents receivable balances for terminated leases and the provision for bad debts recorded for deferred rent receivable balances.

Operating Margins:

Calculated as Net Operating Income divided by total revenues, including discontinued operations.

Retention Rates (Leases Commenced):

Calculated as the percentage of space either renewed or expanded into by existing tenants or subtenants at lease expiration.

Same Store Portfolio:

Our Same Store portfolio includes all of our properties owned and included in our stabilized portfolio as of January 1, 2013 and still owned and included in the stabilized portfolio as of March 31, 2014. It does not include undeveloped land, development and redevelopment properties currently under construction or committed for construction, "lease-up" properties and properties held-for-sale. We define lease-up properties as properties recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. We define redevelopment properties as those projects for which we expect to spend significant development and construction costs on existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property.

Stated Interest Rate:

The rate at which interest expense is recorded per the respective loan documents, excluding the impact of the amortization of any debt discounts/premiums.
