This Supplemental Financial Report contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements include, among other things, information concerning lease expirations, debt maturities, potential investments, development and redevelopment activity, projected construction costs, dispositions and other forward-looking financial data. In some instances, forward-looking statements can be identified by the use of forward-looking terminology such as "expect," "future," "will," "would," "pursue," or "project" and variations of such words and similar expressions that do not relate to historical matters. Forward-looking statements are based on Kilroy Realty Corporation's current expectations, beliefs and assumptions, and are not guarantees of future performance. Forward-looking statements are inherently subject to uncertainties, risks, changes in circumstances, trends and factors that are difficult to predict, many of which are outside of Kilroy Realty Corporation's control. Accordingly, actual performance, results and events may vary materially from those indicated or implied in the forward-looking statements, and you should not rely on the forward-looking statements as predictions of future performance, results or events. Numerous factors could cause actual future performance, results and events to differ materially from those indicated in the forward-looking statements, including, among others: global market and general economic conditions and their effect on our liquidity and financial conditions and those of our tenants; adverse economic or real estate conditions generally, and specifically, in the States of California and Washington; risks associated with our investment in real estate assets, which are illiquid, and with trends in the real estate industry; defaults on or non-renewal of leases by tenants; any significant downturn in tenants' businesses; our ability to re-lease property at or above current market rates; costs to comply with government regulations, including environmental remediation; the availability of cash for distribution and debt service and exposure to risk of default under debt obligations; increases in interest rates and our ability to manage interest rate exposure; the availability of financing on attractive terms or at all, which may adversely impact our future interest expense and our ability to pursue development, redevelopment and acquisition opportunities and refinance existing debt; a decline in real estate asset valuations, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing, and which may result in write-offs or impairment charges; significant competition, which may decrease the occupancy and rental rates of properties; potential losses that may not be covered by insurance; the ability to successfully complete acquisitions and dispositions on announced terms; the ability to successfully operate acquired, developed and redeveloped properties; the ability to successfully complete development and redevelopment projects on schedule and within budgeted amounts; delays or refusals in obtaining all necessary zoning, land use and other required entitlements, governmental permits and authorizations for our development and redevelopment properties; increases in anticipated capital expenditures, tenant improvement and/or leasing costs; defaults on leases for land on which some of our properties are located; adverse changes to, or enactment or implementations of, tax laws or other applicable laws, regulations or legislation, as well as business and consumer reactions to such changes; risks associated with joint venture investments, including our lack of sole decision-making authority, our reliance on co-venturers' financial condition and disputes between us and our co-venturers; environmental uncertainties and risks related to natural disasters; and our ability to maintain our status as a REIT. These factors are not exhaustive and additional factors could adversely affect our business and financial performance. For a discussion of additional factors that could materially adversely affect Kilroy Realty Corporation's business and financial performance, see the factors included under the caption "Risk Factors" in Kilroy Realty Corporation's annual report on Form 10-K for the year ended December 31, 2018, and its other filings with the Securities and Exchange Commission. All forward-looking statements are based on currently available information and speak only as of the dates on which they are made. Kilroy Realty Corporation assumes no obligation to update any forward-looking statement made in this Supplemental Financial Report that becomes untrue because of subsequent events, new information or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under federal securities laws.

Kilroy Realty Corporation

First Quarter 2019 Supplemental Financial Report

Net Income Available to Common Stockholders / FFO Guidance and Outlook (unaudited, \$ and shares/units in thousands, except per share amounts)

The Company is providing an updated guidance range of NAREIT-defined FFO per diluted share for its fiscal year 2019 of \$3.64 to \$3.78 per share with a midpoint of \$3.71 per share.

	Full Year 2019 Range	
	Low End	High End
Net income available to common stockholders per share - diluted	\$ 1.49	\$ 1.63
Weighted average common shares outstanding - diluted (1)	105,700	105,700
Net income available to common stockholders	\$ 157,000	\$ 172,000
Adjustments:		
Net income attributable to noncontrolling common units of the Operating Partnership	3,200	3,600
Net income attributable to noncontrolling interests in consolidated property partnerships	17,000	20,000
Depreciation and amortization of real estate assets	241,000	241,000
Gains on sales of depreciable real estate	—	—
Funds From Operations attributable to noncontrolling interests in consolidated property partnerships	(26,500)	(29,500)
Funds From Operations (2)	<u>\$ 391,700</u>	<u>\$ 407,100</u>
Weighted average common shares and units outstanding - diluted (3)	107,700	107,700
FFO per common share/unit - diluted (3)	<u>\$ 3.64</u>	<u>\$ 3.78</u>

Key 2019 assumptions include:

- Dispositions of approximately \$150.0 million to \$350.0 million
- Flat same store cash net operating income (2)
- Year-end occupancy of 94.0% to 95.0%
- Total remaining development spending of approximately \$400.0 million to \$500.0 million

(1) Calculated based on estimated weighted average shares outstanding including non-participating share-based awards.

(2) See pages 30-31 for Management Statements on Funds From Operations and Same Store Cash Net Operating Income.

(3) Calculated based on weighted average shares outstanding including participating and non-participating share-based awards, dilutive impact of stock options, contingently issuable shares, and shares issuable under forward equity sale agreements and assuming the exchange of all common limited partnership units outstanding. Reported amounts are attributable to common stockholders, common unitholders and restricted stock unitholders.

The Company's guidance estimates for the full year 2019, and the reconciliation of net income available to common stockholders per share - diluted and FFO per share and unit - diluted included within this report, reflect management's views on current and future market conditions, including assumptions with respect to rental rates, occupancy levels, and the earnings impact of the events referenced in this report. Although these guidance estimates reflect the impact on the Company's operating results of an assumed range of future disposition activity, these guidance estimates do not include any estimates of possible future gains or losses from possible future dispositions because the magnitude of gains or losses on sales of depreciable operating properties, if any, will depend on the sales price and depreciated cost basis of the disposed assets at the time of disposition, information that is not known at the time the Company provides guidance, and the timing of any gain recognition will depend on the closing of the dispositions, information that is also not known at the time the Company provides guidance and may occur after the relevant guidance period. We caution you not to place undue reliance on our assumed range of future disposition activity because any potential future disposition transactions will ultimately depend on the market conditions and other factors, including but not limited to the Company's capital needs, the particular assets being sold and the Company's ability to defer some or all of the taxable gain on the sales. These guidance estimates also do not include the impact on operating results from potential future acquisitions, possible capital markets activity, possible future impairment charges or any events outside of the Company's control. There can be no assurance that the Company's actual results will not differ materially from these estimates.

(2) Effective January 1, 2019, the Company adopted ASC 842 "Leases," which required the following changes for all periods beginning and subsequent to January 1, 2019. In accordance with the adoption of the new standard under the modified retrospective method, previously reported periods are not restated for the impact of the standard.

- All lease related revenue required to be reported as a single component within rental income. For the three months ended March 31, 2019, rental income includes \$27.5 million of tenant reimbursements and \$3.3 million of lease termination fees. For this analysis, tenant reimbursements have been broken out from rental income for comparison purposes.

- Rental income to be presented net of provision for bad debts. For the three months ended March 31, 2019, rental income includes a recovery of provision for bad debts of \$3.5 million.

- All property expenses paid directly by the Company and reimbursed by the tenant to be presented on a gross basis. For the three months ended March 31, 2019, rental income and property expenses both include \$3.0 million of additional tenant reimbursements and the related property expenses, which were previously shown net in property expenses in prior periods. This change has no impact to net income, Net Operating Income or Funds From Operations.

- Non-tenant parking income to be presented in other property income instead of rental income since recognized under ASC 606 "Revenue from Contracts with Customers" and outside the scope of ASC 842 "Leases."

- Real estate taxes for properties where the Company is a lessee under ground leases to be presented in ground leases instead of real estate taxes. For the three months ended March 31, 2019, ground leases includes \$0.5 million of property taxes for properties where the Company is a lessee.

(3) The components of Net Operating Income for the three months ended March 31, 2018 have been presented as if we adopted ASC 842 "Leases" effective January 1, 2018 for comparison purposes. For this analysis, tenant reimbursements have been broken out from rental income for comparison purposes. For the three months ended March 31, 2018 as adjusted, rental income includes \$0.4 million of lease termination fees.

First Quarter 2019 Supplemental Financial Report

Management Statements on Non-GAAP Supplemental Measures

Included in this section are management's statements regarding certain non-GAAP financial measures provided in this supplemental financial report and, with respect to Funds From Operations available to common stockholders and common unitholders ("FFO"), in the Company's earnings release on May 6, 2019 and the reasons why management believes that these measures provide useful information to investors about the Company's financial condition and results of operations.

Net Operating Income:

Management believes that Net Operating Income ("NOI") is a useful supplemental measure of the Company's operating performance. The Company defines NOI after the adoption of the new lease accounting standard ASC 842 as follows: consolidated operating revenues (rental income and other property income) less consolidated property and related expenses (property expenses, real estate taxes and ground leases). The Company defines NOI prior to the adoption of the new lease accounting standard ASC 842 as follows: consolidated operating revenues (rental income, tenant reimbursements and other property income) less consolidated property and related expenses (property expenses, real estate taxes, provision for bad debts and ground leases). Other real estate investment trusts ("REITs") may use different methodologies for calculating NOI, and accordingly, the Company's NOI may not be comparable to other REITs.

Because NOI excludes leasing costs, general and administrative expenses, interest expense, depreciation and amortization, other nonproperty income and losses, and gains and losses from property dispositions, it provides a performance measure that, when compared year over year, reflects the consolidated revenues and expenses directly associated with owning and operating commercial real estate and the impact to operations from trends in occupancy rates, rental rates, and operating costs, providing a perspective on operations not immediately apparent from net income. The Company uses NOI to evaluate its operating performance on a portfolio basis since NOI allows the Company to evaluate the impact that factors such as occupancy levels, lease structure, rental rates, and tenant base have on the Company's results, margins and returns. In addition, management believes that NOI provides useful information to the investment community about the Company's financial and operating performance when compared to other REITs since NOI is generally recognized as a standard measure of performance in the real estate industry.

However, NOI should not be viewed as an alternative measure of the Company's financial performance since it does not reflect general and administrative expenses, leasing costs, interest expense, depreciation and amortization costs, other nonproperty income and losses and the level of capital expenditures necessary to maintain the operating performance of the Company's properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact the Company's results from operations.

Same Store Net Operating Income:

Management believes that Same Store NOI is a useful supplemental measure of the Company's operating performance. Same Store NOI represents the consolidated NOI for all of the properties that were owned and included in the Company's stabilized portfolio for two comparable reporting periods. Because Same Store NOI excludes the change in NOI from developed, redeveloped, acquired and disposed of and held for sale properties, it highlights operating trends such as occupancy levels, rental rates and operating costs on properties. Other REITs may use different methodologies for calculating Same Store NOI, and accordingly, the Company's Same Store NOI may not be comparable to other REITs.

However, Same Store NOI should not be viewed as an alternative measure of the Company's financial performance since it does not reflect the operations of the Company's entire portfolio, nor does it reflect the impact of general and administrative expenses, leasing costs, interest expense, depreciation and amortization costs, other nonproperty income and losses and the level of capital expenditures necessary to maintain the operating performance of the Company's properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact the Company's results from operations.

Management Statements on Non-GAAP Supplemental Measures, continued

Same Store Cash Net Operating Income:

Management believes that Same Store Cash NOI is a useful supplemental measure of the Company's operating performance. Same Store Cash NOI represents the consolidated NOI for all of the properties that were owned and included in the Company's stabilized portfolio for two comparable reporting periods, adjusted for the net effect of straight-line rents, amortization of deferred revenue related to tenant-funded tenant improvements, amortization of above and below market lease intangibles, and the provision for bad debts. Because Same Store Cash NOI excludes the change in NOI from developed, redeveloped, acquired and disposed of and held for sale properties, it highlights operating trends on a cash basis such as occupancy levels, rental rates and operating costs on properties. Other REITs may use different methodologies for calculating Same Store Cash NOI, and accordingly, our Same Store Cash NOI may not be comparable to other REITs.

However, Same Store Cash NOI should not be viewed as an alternative measure of the Company's financial performance since it does not reflect the operations of the Company's entire portfolio, nor does it reflect the impact of general and administrative expenses, acquisition-related expenses, interest expense, depreciation and amortization costs, other nonproperty income and losses, the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact the Company's results from operations.

EBITDA, as adjusted:

Management believes that consolidated earnings before interest expense, depreciation and amortization, gain/loss on early extinguishment of debt, gains and losses on depreciable real estate, net income attributable to noncontrolling interests, preferred dividends and distributions, original issuance costs of redeemed preferred stock and preferred units, and impairment losses ("EBITDA, as adjusted") is a useful supplemental measure of the Company's operating performance. When considered with other GAAP measures and FFO, management believes EBITDA, as adjusted, gives the investment community a more complete understanding of the Company's consolidated operating results, including the impact of general and administrative expenses and acquisition-related expenses, before the impact of investing and financing transactions and facilitates comparisons with competitors. Management also believes it is appropriate to present EBITDA, as adjusted, as it is used in several of the Company's financial covenants for both its secured and unsecured debt. However, EBITDA, as adjusted, should not be viewed as an alternative measure of the Company's operating performance since it excludes financing costs as well as depreciation and amortization costs which are significant economic costs that could materially impact the Company's results of operations and liquidity. Other REITs may use different methodologies for calculating EBITDA, as adjusted, and, accordingly, the Company's EBITDA, as adjusted, may not be comparable to other REITs. The Company's calculation of EBITDA, as adjusted, is the same as EBITDAre, as defined by NAREIT, as the Company does not have any unconsolidated joint ventures.

Kilroy Realty Corporation

First Quarter 2019 Supplemental Financial Report

Management Statements on Non-GAAP Supplemental Measures, continued

Funds From Operations:

The Company calculates Funds From Operations available to common stockholders and common unitholders (“FFO”) in accordance with the 2018 Restated White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales of depreciable real estate and impairment write-downs associated with depreciable real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets) and after adjustment for unconsolidated partnerships and joint ventures. Our calculation of FFO includes the amortization of deferred revenue related to tenant-funded tenant improvements and excludes the depreciation of the related tenant improvement assets. We also add back net income attributable to noncontrolling common units of the Operating Partnership because we report FFO attributable to common stockholders and common unitholders.

Management believes that FFO is a useful supplemental measure of the Company’s operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of the Company’s activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, the Company’s FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, management believes that FFO along with the required GAAP presentations provides a more complete measurement of the Company’s performance relative to its competitors and a more appropriate basis on which to make decisions involving operating, financing and investing activities than the required GAAP presentations alone would provide.

However, FFO should not be viewed as an alternative measure of the Company’s operating performance since it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company’s properties, which are significant economic costs and could materially impact the Company’s results from operations.

Funds Available for Distribution:

Management believes that Funds Available for Distribution available to common stockholders and common unitholders (“FAD”) is a useful supplemental measure of the Company’s liquidity. The Company computes FAD by adding to FFO the non-cash amortization of deferred financing costs, debt discounts and premiums and share-based compensation awards, amortization of above (below) market rents for acquisition properties and non-cash executive compensation expense then subtracting recurring tenant improvements, leasing commissions and capital expenditures and eliminating the net effect of straight-line rents, amortization of deferred revenue related to tenant improvements, adjusting for other lease related items and after adjustment for amounts attributable to noncontrolling interests in consolidated property partnerships. FAD provides an additional perspective on the Company’s ability to fund cash needs and make distributions to stockholders by adjusting FFO for the impact of certain cash and non-cash items, as well as adjusting FFO for recurring capital expenditures and leasing costs. Management also believes that FAD provides useful information to the investment community about the Company’s financial position as compared to other REITs since FAD is a liquidity measure used by other REITs. However, other REITs may use different methodologies for calculating FAD and, accordingly, the Company’s FAD may not be comparable to other REITs.

Definitions Included in Supplemental

Annualized Base Rent:

Includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related to tenant-funded tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases, and expense reimbursement revenue. Additionally, the underlying leases contain various expense structures including full service gross, modified gross and triple net. Amounts represent percentage of total portfolio annualized contractual base rental revenue.

Change in GAAP/Cash Rents (Leases Commenced):

Calculated as the change between GAAP/cash rents for new/renewed leases and the expiring GAAP/cash rents for the same space. Excludes leases for which the space was vacant longer than one year, or vacant when the property was acquired by the Company.

Change in GAAP/Cash Rents (Leases Executed):

Calculated as the change between GAAP/cash rents for signed leases and the expiring GAAP/cash rents for the same space. Excludes leases for which the space was vacant longer than one year, or vacant when the property was acquired by the Company.

Estimated Stabilization Date (Development):

Management's estimation of the earlier of stabilized occupancy (95%) or one year from the date of the cessation of major base building construction activities for office and retail properties and upon substantial completion for residential properties.

FAD Payout Ratio:

Calculated as current-quarter dividends accrued to common stockholders and common unitholders (excluding dividend equivalents accrued to restricted stock unitholders) divided by FAD.

First Generation Capital Expenditures:

Capital expenditures for newly acquired space, newly developed, redeveloped, or repositioned space. These costs are not subtracted in our calculation of FAD.

Fixed Charge Coverage Ratio:

Calculated as EBITDA, as adjusted, divided by gross interest expense (excluding amortization of deferred debt costs and debt discounts/premiums) and current year accrued preferred dividends.

FFO Payout Ratio:

Calculated as current-quarter dividends accrued to common stockholders and common unitholders (excluding dividend equivalents accrued to restricted stock unitholders) divided by FFO attributable to common stockholders and unitholders.

First Quarter 2019 Supplemental Financial Report

Definitions Included in Supplemental, continued

GAAP Effective Rate:

The rate at which interest expense is recorded for financial reporting purposes, which reflects the amortization of any discounts/premiums, excluding debt issuance costs.

Interest Coverage Ratio:

Calculated as EBITDA, as adjusted, divided by gross interest expense (excluding amortization of deferred debt costs and debt discounts/premiums).

Net Effect of Straight-Line Rents:

Represents the straight-line rent income recognized during the period offset by cash received during the period that was applied to deferred rents receivable balances for terminated leases and the provision for bad debts recorded for deferred rent receivable balances.

Net Operating Income Margins:

Calculated as Net Operating Income divided by total revenues.

Retention Rates (Leases Commenced):

Calculated as the percentage of space either renewed or expanded into by existing tenants or subtenants at lease expiration.

Same Store Portfolio:

Our Same Store portfolio includes all of our properties owned and included in our stabilized portfolio for two comparable reporting periods, i.e., owned and included in our stabilized portfolio as of January 1, 2018 and still owned and included in the stabilized portfolio as of March 31, 2019. It does not include undeveloped land, development and redevelopment properties currently committed for construction, under construction, or in the tenant improvement phase and properties held-for-sale. We define redevelopment properties as those projects for which we expect to spend significant development and construction costs on existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property.

Stated Interest Rate:

The rate at which interest expense is recorded per the respective loan documents, excluding the impact of the amortization of any debt discounts/premiums.

Tenant Improvement Phase:

Represents projects that have reached cold shell condition and are ready for tenant improvements, which may require additional major base building construction before being placed in service.

KILROY REALTY CORPORATION REPORTS FIRST QUARTER FINANCIAL RESULTS

LOS ANGELES, May 6, 2019 - Kilroy Realty Corporation (*NYSE: KRC*) today reported financial results for its first quarter ended March 31, 2019.

First Quarter Highlights

Financial Results

- Net income available to common stockholders per share of \$0.36
- Funds from operations available to common stockholders and unitholders (“FFO”) per share of \$0.95
 - FFO for the first quarter 2019 included a positive \$0.03 per share impact related to the improved credit quality of a tenant for which the company recorded a bad debt reserve in 2018
 - The adoption of the new lease accounting standard requires expensing of internal leasing costs and third-party legal fees which had the impact of lowering first quarter FFO by \$0.02 per share when compared to what the results would have been under the prior standard

- Revenues of \$201.2 million

Stabilized Portfolio

- Stabilized portfolio was 92.5% occupied and 96.2% leased at March 31, 2019
- Signed approximately 203,000 square feet of new or renewing leases

Development

- In March, commenced construction on Phase I of Kilroy Oyster Point in South San Francisco and 9455 Towne Centre Drive in the University Towne Center submarket of San Diego
 - Phase I of Kilroy Oyster Point encompasses approximately 630,000 square feet of office and lab space and represents a total estimated investment of \$600.0 million
 - 9455 Towne Centre Drive encompasses approximately 160,000 square feet of office and lab space and represents a total estimated investment of \$125.0 million

- In March, transferred the \$95.0 million retail component of One Paseo, encompassing 96,000 square feet in the Del Mar submarket of San Diego, from under construction to the tenant improvement phase. The retail component is currently 92% leased

Finance

- In February, repaid at par a mortgage note for \$74.3 million due June 2019
- In March and April, executed 12-month forward equity sale agreements under the ATM program for 1,201,204 shares at a weighted average sales price of \$75.92
- As of the date of this report, the company had not drawn down any portion of the shares sold under the forward equity agreements, including the transaction executed in August 2018

Results for the Quarter Ended March 31, 2019

For the first quarter ended March 31, 2019, KRC reported net income available to common stockholders of \$36.9 million, or \$0.36 per share, including a \$0.03 per share decrease related to the expensing of indirect leasing costs in connection with the adoption of the new lease accounting standard compared to \$36.2 million, or \$0.36 per share, in the first quarter of 2018. FFO in the first quarter of 2019 was \$99.8 million, or \$0.95 per share, including a \$0.02 per share decrease related to the expensing of indirect leasing costs in connection with the new lease accounting standard adoption, compared to \$96.3 million, or \$0.94 per share, in the year-earlier quarter. Net income available to common stockholders and FFO for the first quarter 2019 also included a positive \$0.03 per share impact related to the improved credit quality of a tenant for which we recorded a bad debt reserve in 2018.

All per share amounts in this report are presented on a diluted basis.

Net Income Available to Common Stockholders / FFO Guidance and Outlook

The company has updated its guidance range of NAREIT-defined FFO per diluted share for its fiscal year 2019 to \$3.64 to \$3.78 per share, with a midpoint of \$3.71 per share, reflecting management's views on current and future market conditions, including assumptions with respect to rental rates, occupancy levels, and the earnings impact of events referenced in this press release.

	Full Year 2019 Range

Funds From Operations per common share/unit – diluted ⁽²⁾⁽³⁾	<u>\$ 3.64</u>	<u>\$ 3.78</u>

Key 2019 assumptions include:

- Dispositions of approximately \$150.0 million to \$350.0 million

- Flat same store cash net operating income
- Year-end occupancy of 94.0% to 95.0%
- Total remaining development spending of approximately \$400.0 million to \$500.0 million

(1) Calculated based on estimated weighted average shares outstanding including non-participating share-based awards.

(2) See management statement for FFO at end of release.

(3) Calculated based on weighted average shares outstanding including participating and non-participating share-based awards, dilutive impact of stock options, contingently issuable shares, and shares issuable under forward equity sale agreements and assuming the exchange of all common limited partnership units outstanding. Reported amounts are attributable to common stockholders, common unitholders and restricted stock unitholders.

The company's guidance estimates for the full year 2019, and the reconciliation of net income available to common stockholders per share - diluted and FFO per share and unit - diluted included within this press release, reflect management's views on current and future market conditions, including assumptions with respect to rental rates, occupancy levels, and the earnings impact of the events referenced in this press release. Although these guidance estimates reflect the impact on the company's operating results of an assumed range of future disposition activity, these guidance estimates do not include any estimates of possible future gains or losses from possible future dispositions because the magnitude of gains or losses on sales of depreciable operating properties, if any, will depend on the sales price and depreciated cost basis of the disposed assets at the time of disposition, information that is not known at the time the company provides guidance, and the timing of any gain recognition will depend on the closing of the dispositions, information that is also not known at the time the company provides guidance and may occur after the relevant guidance period. We caution you not to place undue reliance on our assumed range of future disposition activity because any potential future disposition transactions will ultimately depend on the market conditions and other factors, including but not limited to the company's capital needs, the particular assets being sold and the company's ability to defer some or all of the taxable gain on the sales. These guidance estimates also do not include the impact on operating results from potential future acquisitions, possible capital markets activity, possible future impairment charges or any events outside of the company's control. There can be no assurance that the company's actual results will not differ materially from these estimates.

Conference Call and Audio Webcast

KRC management will discuss updated earnings guidance for fiscal year 2019 during the company's May 7, 2019 earnings conference call. The call will begin at 10:00 a.m. Pacific Time and last approximately one hour. About Kilroy Realty Corporation

Kilroy Realty Corporation (KRC), a publicly traded real estate investment trust and member of the S&P MidCap 400 Index, is one of the West Coast's premier landlords. The company has over 70 years of experience developing, acquiring and managing office and mixed-use real estate assets. The company provides physical work environments that foster creativity and productivity and serves a broad roster of dynamic, innovation-driven tenants, including technology, entertainment, digital media and health care companies.

At March 31, 2019, the company's stabilized portfolio totaled approximately 13.2 million square feet of office space located in the coastal regions of Los Angeles, Orange County, San Diego, the San Francisco Bay Area and Greater Seattle and 200 residential units located in the Hollywood submarket of Los Angeles. The stabilized

portfolio was 92.5% occupied and 96.2% leased. In addition, KRC had under construction five projects totaling approximately 2.1 million square feet of office space that was 26% leased and 801 residential units. KRC also had three projects in the tenant improvement phase totaling approximately 1.2 million square feet of office, PDR and retail space of which the office components of the projects are fully leased to Adobe and Dropbox.

The company's commitment and leadership position in sustainability has been recognized by various industry groups across the world. In September 2018, the company was recognized by GRESB both as North American leader across all asset classes and a global leader among all publicly traded real estate companies. Other sustainability accolades include NAREIT's Leader in the Light award for the past five years, the EPA's highest honor of Sustained Excellence and winner of Energy Star Partner of the Year for the past six years. The company is listed in the Dow Jones Sustainability World Index. At the end of the first quarter, the company's stabilized portfolio was 63% LEED certified and 76% of eligible properties were ENERGY STAR certified. Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are based on our current expectations, beliefs and assumptions, and are not guarantees of future performance. Forward-looking statements are inherently subject to uncertainties, risks, changes in circumstances, trends and factors that are difficult to predict, many of which are outside of our control. Accordingly, actual performance, results and events may vary materially from those indicated or implied in the forward-looking statements, and you should not rely on the forward-looking statements as predictions of future performance, results or events. Numerous factors could cause actual future performance, results and events to differ materially from those indicated in the forward-looking statements, including, among others: global market and general economic conditions and their effect on our liquidity and financial conditions and those of our tenants; adverse economic or real estate conditions generally, and specifically, in the States of California and Washington; risks associated with our investment in real estate assets, which are illiquid, and with trends in the real estate industry; defaults on or non-renewal of leases by tenants; any significant downturn in tenants' businesses; our ability to re-lease property at or above current market rates; costs to comply with government regulations, including environmental remediation; the availability of cash for distribution and debt service and exposure to risk of default under debt obligations; increases in interest rates and our ability to manage interest rate exposure; the availability of financing on attractive terms or at all, which may adversely impact our future interest expense and our ability to pursue development, redevelopment and acquisition opportunities and refinance existing debt; a decline in real estate asset valuations, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing, and which may result in write offs or impairment charges; significant competition, which may decrease the occupancy and rental rates of properties; potential losses that may not be covered by insurance; the ability to successfully complete acquisitions and dispositions on announced terms; the ability to successfully operate acquired, developed and redeveloped properties; the ability to successfully complete development and redevelopment projects on schedule and within budgeted amounts; delays or refusals in obtaining all necessary zoning, land use and other required entitlements, governmental permits and authorizations for our development and redevelopment properties; increases in anticipated capital expenditures, tenant improvement and/or leasing costs; defaults on leases for land on which some of our properties are located; adverse changes to, or enactment or implementations of, tax laws or other applicable laws, regulations or legislation, as well as business and consumer reactions to such changes; risks associated with joint venture investments, including our lack of sole decision-making authority, our reliance on co-venturers' financial condition and disputes between us and our co-venturers; environmental uncertainties and risks related to natural disasters; and our ability to maintain our status as a REIT. These factors are not exhaustive and additional factors could adversely affect our business and financial performance. For a discussion of additional factors that could materially adversely affect our business and

financial performance, see the factors included under the caption “Risk Factors” in our annual report on Form 10-K for the year ended December 31, 2018 and our other filings with the Securities and Exchange Commission. All forward-looking statements are based on currently available information and speak only as of the dates on which they are made. We assume no obligation to update any forward-looking statement made in this press release that becomes untrue because of subsequent events, new information or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under federal securities laws.

- (1) Effective January 1, 2019, the company adopted ASC 842 “Leases,” which required the following changes for all periods beginning and subsequent to January 1, 2019. In accordance with the adoption of the new standard under the modified retrospective method, previously reported periods are not restated for the impact of the standard.
- All lease related revenue required to be reported as a single component within rental income. For the three months ended March 31, 2019, rental income includes \$27.5 million of tenant reimbursements and \$3.3 million of lease termination fees.
 - Rental income to be presented net of provision for bad debts. For the three months ended March 31, 2019, rental income includes a recovery of provision for bad debts of \$3.5 million.
 - All property expenses paid directly by the company and reimbursed by the tenant to be presented on a gross basis. For the three months ended March 31, 2019, rental income and property expenses both include \$3.0 million of additional tenant reimbursements and the related property expenses, which were previously shown net in property expenses in prior periods. This change has no impact to net income, Net Operating Income or Funds From Operations.
 - Non-tenant parking income to be presented in other property income instead of rental income since recognized under ASC 606 “Revenue from Contracts with Customers” and outside the scope of ASC 842 “Leases.”
 - Real estate taxes for properties where the company is a lessee under ground leases to be presented in ground leases instead of real estate taxes. For the three months ended March 31, 2019, ground leases includes \$0.5 million of property taxes for properties where the company is a lessee.
 - Indirect leasing costs to be expensed as incurred and reported in leasing costs.

(1) We calculate Funds From Operations available to common stockholders and common unitholders (“FFO”) in accordance with the 2018 Restated White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales of depreciable real estate and impairment write-downs associated with depreciable real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets) and after adjustment for unconsolidated partnerships and joint ventures. Our calculation of FFO includes the amortization of deferred revenue related to tenant-funded tenant improvements and excludes the depreciation of the related tenant improvement assets. We also add back net income attributable to noncontrolling common units of the Operating Partnership because we report FFO attributable to common stockholders and common unitholders.

We believe that FFO is a useful supplemental measure of our operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of our activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, our FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, we believe that FFO along with the required GAAP presentations provides a more complete measurement of our performance relative to our competitors and a more appropriate basis on which to make decisions involving operating, financing and investing activities than the required GAAP presentations alone would provide.

However, FFO should not be viewed as an alternative measure of our operating performance because it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs and could materially impact our results from operations.

- (2) Reported amounts are attributable to common stockholders, common unitholders, and restricted stock unitholders.
- (3) FFO available to common stockholders and unitholders includes amortization of deferred revenue related to tenant-funded tenant improvements of \$3.8 million and \$4.3 million for the three months ended March 31, 2019 and 2018, respectively.
- (4) Calculated based on weighted average shares outstanding including participating share-based awards (i.e. nonvested stock and certain time based restricted stock units) and assuming the exchange of all common limited partnership units outstanding.
- (5) Calculated based on weighted average shares outstanding including participating and non-participating share-based awards, dilutive impact of stock options, contingently issuable shares, and shares issuable under forward equity sale agreements and assuming the exchange of all common limited partnership units outstanding.
